

USECA SUMMER FLYER

JULY - AUGUST 1990

Don's Basement Hams On Ice Swaps
Dayton Hamvention Field Day

These are just a few of the happenings USECA members have participated in so far this year. There's still a lot to come. In this "summer flyer" (not to be confused with "The USECA Express", the club's monthly newsletter) are the scheduled events that will take place this summer along with several announcements. As you are well aware, we will not have a regular club meeting for the months of July and August. Just in case you've missed something and need to get in touch with someone about times, places and various events, use this helpful flyer. Remember to keep it handy - don't misplace it - it's the only one you're gonna get! Ya'll have a great summer, ya hear?

Special thanks to all who helped in getting this flyer together:
Shirley WD8IWE, Arpad WY8M, Ann KB4FXV and Pat N8LOG.

TO ALL FIELD DAY PARTICIPANTS

What a Field Day! Even though we had crappy weather, a heck of a lot of people showed up (200+). Hardcore operators, new hams and people who didn't know they were hardcore operators but are now. Two pigs, oh wow! I love food, no secret. Anyway, Field Day is over. Time to think ahead toTHE SWAP. That's right boys and girls. The USECA Swap-n-Shop is October 14, 1990. A lot of advanced planning and work goes into the Swap and your help is needed. We need to get the word out to non-hams. Hams'll find out. "Hey Fred, where's the swap tomorrow?", can be heard on repeaters all day Saturday. Flyers need to get to Radio Shacks, computer stores, electronic parts stores, work place bulletin boards, etc. Now for the guilt trip. The Swap literally pays for our Field Day. Our Swap generates well over a grand and believe it or not, we spend well over a grand for food, gas and miscellaneous supplies on Field Day. Sooooo, all of ya that enjoyed the pigs, breakfasts, lunches and dinners, thank the kitchen crew AND the 1989 USECA Swap. 'Nough said. "Thank you for your support!"

Arpad WY8M

P.S. Honorable mention: Lisa (N8MET's wife). Gotta give credit where credit is due. She stayed up most of the night thru the contest getting people food & coffee with Kevin N8LLE. Also cleaning the kitchen and cafeteria. Your help was greatly appreciated by the midnight shift operators.
